

The Clean Air Campaign

Clean Air Schools Programs

Who We Are:

A Georgia nonprofit organization that works with employers, commuters and schools to improve air quality and reduce traffic congestion.

Why Your School Should Become a Clean Air School:

Children's lungs are still developing, making them more vulnerable to the impact of vehicle exhaust and poor air quality. The Clean Air Campaign's Clean Air Schools initiative empowers you and your entire school community to make a difference in cleaning up our air!

Clean Air Schools Programs:

Free and available to pre-school, elementary, middle and high schools across the state.

1. No-Idling Program - Encourages parent drivers and school bus drivers to turn off their engines when dropping off or waiting for students. Includes free in-ground signage and a how-to tool kit with promotional and educational materials.

2. Ride The Bus! For Clean Air - Designed to get more students on the bus and out of cars that contribute to traffic on and around school grounds. New toolkit can be downloaded from CleanAirCampaign.org.

3. Pool to School - Provides schools with the tools to organize and promote car pooling to school to reduce traffic, increase carpool efficiency and reduce pollution. Contact us for more information.

Air Quality Lesson Plans - For grades 1-12; includes multiple lessons per grade that are aligned with Georgia Performance Standards. Lesson plans are designed to support the Clean Air Schools programs.

For walking and biking initiatives that compliment your Clean Air Schools program, visit Georgia Safe Routes to School: www.saferoutesga.org.

Join the growing ranks of Clean Air Schools in Georgia and be a part of the solution to air pollution! It's easy, educational and fun!

To get started: Register online at CleanAirCampaign.org/Kids-Schools or have your school fax the completed registration form to 678-244-7740.
